

COLOUR LAB

This fun-filled workshop is an interactive introduction to the science of colour. Children will learn about light and colour, and practice identifying colours in a variety of activities. An amazing demonstration opens up the world of colour-changing chemicals. The concept of colour mixing will be explored in a hands-on chromatography activity where children will create beautiful flowers.

Please see below for the materials that you will need to collect prior to the Workshop.

Experiment #1 - Colour Mixing

- 3 Clear Glasses Half-Filled with Water
- 2 of Either Blue, Red or Yellow Food Colouring
- Tray for Spills

Experiment #2- Coloured Flowers

- Tray to Catch Spills
- Round Coffee Filters
- Washable Markers (any colours)
- A Cup of Water
- A Large Paper or Styrofoam Plate
- Paper Towel
- Optional: 2 Pipe Cleaners
