

HUMAN BODY

This workshop is an interactive introduction to the Human Body. Students will identify organs, build a bony skeleton and learn about muscles. Incredible visual demonstrations show how the stomach digests food and the amazing length of intestines inside each person. The children will end the workshop making an x-ray image of their hand.

Please see below for the items that participants will require for the Workshop:

Skeleton Puzzle

- Print the attached pages and cut out the images (can be printed in black and white)
[Click Here to Print Puzzle](#)

X-Ray Hand

- 1/2 Sheet of Dark Construction Paper (Preferably Black)
- 7 Q-Tips/Cotton Swabs
- White Glue
- Scissors
- White Chalk or White Crayon
- Tray or Placemat
